

Michelle Davis

I grew up in New England. I have had the good fortune of being able to travel to many places. When my children were younger, I took in foreign exchange students (South Korea, Spain, Norway) as a way to expose them to different cultures. I took them to Quebec and England to immerse them in a foreign language and culture as well. I've always been fascinated with different cultures and ways of living, thinking, and being. I worked in contracting work for the Navy and DOD before and after active duty as a P-3 sonar tech. I graduated with a Bachelors in Organizational Communications/ Public Relations. I had a wedding business in NH, and as a Justice of the peace performed ceremonies for many different venues. I love being active and outside, being in nature. I volunteer at Warrior Canine Connection training dogs to become service dogs, and at Blue Ridge Humane Society, spending time caring for their dogs too. Yes, I'm a huge dog person. I'm heading to Portugal this April with EF tours for 10 days. And now that I'm retired, I'm ready to travel the world. **We welcome you, Michelle!!**
